## लभा - Protect & Save Earth

## World Environment Day

## pariyavartan - 2024

## Celebration of Silver Jubilee Anniversary CMD

Dr. Sundar Kataria

Thank you for your valuable association, partnership, and patronage. We highly appreciate and are grateful for your support.

Our adventurous journey in life is more important than the destination itself. True success is marked by overall wellness, sustainability, and continuity in business operations. The growth and development of our organization and its workforce aim to bring wellness, happiness, joy, and smiles to people's lives.

On this auspicious occasion of the ICS Silver Jubilee Anniversary, let us unite in our vision, goals, and objectives to become true partners in enhancing the quality of life, safeguarding life, property/assets, and the environment.

Our journey began in 1999, and we have continuously grown to serve the MSME, Manufacturing, and Service Industries, and by extension, our Nation.

Today, ICS has emerged as a leading provider of Total Quality Solutions and a prominent Conformance Assessment Body. We have consistently supported Government of India initiatives such as:

- Swachh Bharat
- Make in India
- Aatma Nirbhar Bharat
- Azadi ka Amrit Mahotsav

We have innovated and developed various activities to meet the present needs and requirements of industries across various sectors, including:

- Certification of Management Systems
- Inspection & Testing
- Qualification & Training of Personnel
- Corrosion, CP Systems, and Coating system
- Assurance Services for the Insurance Sector industry
- Medical Devices Certification
- Food Safety Management Systems
- Supply of Medicines
- Information Technology
- Laboratory Services (Specialized in Corrosion & Forensics)

**"Main Akela Chalta Tha,  
Janid -a-Manzil, Magar Log  
Saath Aate Gaye aur KARVANA Banta Gaya."**

Our main strength lies in our people, technology, and partnerships. The contributions of our dedicated team have built ICS into a robust association of people and organization. ICS has also been a training ground for certification bodies in India, boosting certification activities nationwide.

Let us work towards our long-term goal to serve the nation by ensuring, assuring quality safety, and environment in all our endeavors.

## BIO HAZARDS – Control, Mitigation, and Protection

The COVID-19 pandemic has highlighted the potentially devastating impact of biological hazards on the global workforce. In response, the International Labour Conference will be held in Geneva in June 2024 to discuss biological hazard controls, mitigation, and protection, aiming to establish a comprehensive legal framework. Member countries of the International Labour Organization (ILO) will be expected to develop national policies for preventing and protecting workers against biological hazards, aligning these policies with international standards. A total of 187 countries are expected to participate, with the goal of creating common legislation to govern occupational health and safety and improve working conditions worldwide.

The ILO emphasizes that workers in environments such as hospitals, laboratories, cattle farms and production factories, grain silos, sewage maintenance facilities, waste collection and disposal, farming, agriculture, and related activities may be exposed to biological hazards. These hazards include bacteria, viruses, parasites, fungi, prions, DNA materials, bodily fluids, microorganisms, and their associated allergens and toxins. Such exposure can lead to diseases like Influenza, COVID-19, and plague, as well as non-communicable diseases such as allergies. According to ILO studies, in 2021, work exposure to contagious and non-contagious biological risks resulted in 550,000 fatalities, accounting for 9.8% of all work-related deaths and representing 0.50% of the global GDP, equivalent to US\$ 545 billion.

The Central Pollution Control Board, under the Ministry of Environment and Forests, is responsible for controlling, protecting, and mitigating biological hazards through city Municipal Corporations and other government authorities. Organizations must also ensure the health and safety of workers exposed to various industries and activities. The effective implementation of international standards such as ISO 14001 (Environmental Management System) and ISO 45001 (Occupational Health and Safety) will help safeguard workers' occupational health and safety against physical, chemical, and biological hazards.

## WORLD ENVIRONMENT DAY

Empanelled Auditor- ICS Bangalore

Mr. Surendra

Environment is a sum total of all living and non-living elements and their effects that influence human life. While all living or biotic elements are animals, plants, forests, fisheries, and birds, non-living or abiotic elements include water, land, sunlight, rocks, and air.

World Environment Day, the 5th June 2024 is the United Nations day for encouraging worldwide awareness and action to protect our environment.

In an underdeveloped country, water scarcity and in a developed country polluted air harms the life of living and non living beings.

There is sufficiency in the world for man's need but not for man's greed. Nature provides a free lunch, but only if we control our appetites. We never know the worth of water till the well is dry.

Embracing the Mantra is to Reduce, Reuse, and Recycle. Water has proven to be a guiding principle for sustainability in various aspects of our lives. When applied to water, it becomes a powerful tool in our fight against the global water crisis. By reducing our water consumption, reusing treated waste water, and recycling water in our homes and businesses, we can contribute to a more sustainable and water-secure future. It's not just a responsibility; it's an opportunity to create a world where everyone has access to clean and reliable water sources. Embrace the mantra, and together, we can make a meaningful difference.

Ms. Nirmala

## WORLD ENVIRONMENT DAY

Sr. Office Executive (Admin) - ICS BANGALORE

Started in 1973 on 5th June, it has been a platform for raising awareness on environmental issue like marine pollution, global warming sustainable development and wild life rescue with participation from 143 countries .

Every year the program provided the theme and forum business organization .United nation Under -Secretary -General and Head of UN Environment, Jointly announced that India will be hosting the Global World Environment Day celebration on 5th June.

Beat plastic pollution in the year 2018,reduce the production and made of single use for polluting our ocean, protecting human health, it is focuses on land restoration under the slogan , the kingdom of Saudi Arabia will host the 2024 world environment day global celebration under the theme Our land Our future .

### Most important tools for our survival,

- Reduce , Reuse and Recycle,
- Volunteer for cleaning our community,
- Awareness of educating our Environment,
- Save water,
- Sustainability together ,
- Save plant and trees,
- Keep Nature alive,
- Go green and breath clean,
- Stop polluting ,
- Think twice before you thrash,
- Better environment the better tomorrow

## **Chief Guest, Prof. B. N. Jagatap , Topic : - Go Nuclear to Save Our Plane**

Nuclear energy has a lot to offer. It may be the cheapest, greenest and safest source of energy that can save our planet.

Innovations and technological advances will continue to help increase nuclear power's contribution to the world energy mix.

Nuclear energy contributes to sustainable development goals.

While nuclear power offers potential benefits in the fight against climate change, it is essential to balance these advantages with the associated challenges and concerns.

The debate around nuclear power involves weighing its role alongside other clean energy options in achieving sustainable and secure energy systems for the future.

Effective policies, technological advancements, and public acceptance will shape the future of nuclear power in the global energy landscape.

## **Keynote, Mr Sudhir Babanrao Shelke, Topic : - Spirituality & Environment**

Spirituality and environmentalism are interconnected through various perspectives and practices that emphasize the sacredness of nature, human responsibility towards the environment, and the interconnectedness of all life.

Here are some ways spirituality influences environmental consciousness and action:

- Sacredness of Nature
- Interconnectedness and Unity
- Mindfulness and Sustainable Living
- Activism and Advocacy
- Rituals and Ceremonies
- Spirituality plays a significant role in shaping attitudes and behaviors towards the environment, emphasizing interconnectedness, reverence for nature, and ethical responsibility.

Integrating spiritual values with environmental consciousness can lead to more holistic approaches to sustainability, fostering a deeper appreciation for the Earth and inspiring actions that promote its well-being for future generations.

## **Technical Speaker: Dr. Nisha Kohli - Topic : ESG & Carbon Credit, Carbon Footprint**

ESG refers to a set of criteria used to assess a company's performance in three key areas:

- Environmental
- Social
- Governance

Carbon credits are a market-based mechanism designed to incentivize and fund projects that reduce or remove greenhouse gas (GHG) emissions from the atmosphere. Each carbon credit represents a quantifiable reduction of one metric ton of CO<sub>2</sub> equivalent (CO<sub>2</sub>e) emissions.

A carbon footprint measures the total amount of greenhouse gases, mainly carbon dioxide (CO<sub>2</sub>), produced directly or indirectly by human activities. This footprint can be calculated for individuals, organizations, products, or events.

ESG criteria, carbon credits, and carbon footprint measurement are integral to sustainable business practices, offering frameworks for companies to manage environmental impacts, enhance transparency, and contribute to global climate goals.

## **Technical Speaker : Mr. Indu Joshi, Topic : Environment Literacy**

Environmental Literacy is having the knowledge, skills and dispositions to solve problems and resolve issues individually and collectively that sustain ecological, economic and social stability.

### **Outcome of Environment Literacy**

- We can envision homeowners who recycle and reduce their use of polluting products in the kitchen, laundry, garage, and garden.
- We can envision manufacturing plant and shop workers who are more careful about their use of electricity, toxic substances, and waste disposal.
- And we can imagine business managers running cleaner operations, and using more environmentally beneficial products.
- We can also envision community leaders who are skillful at balancing development and transportation plans with public needs for open spaces, trees, wildlife, clean water, exercise, and fresh air.
- Agricultural Residue of garbage burning will be stopped.
- Conservation of water, energy etc.
- Environmental literacy is essential for fostering a sustainable future, equipping individuals with the knowledge, skills, and values needed to address environmental challenges effectively.
- By enhancing environmental literacy at all levels of society, we can empower individuals to become informed and proactive stewards of the environment, contributing to global efforts for a more resilient and sustainable planet.

## **Technical Speaker - Mr. Kombaiah P.- Topic - Conservation of Natural Resources**

Conservation of natural resources is crucial for maintaining ecological balance, promoting sustainable development, and ensuring a habitable planet for future generations. By integrating conservation principles into policies, practices, and everyday choices, individuals and societies can contribute to preserving Earth's natural heritage and enhancing the quality of life for all species.

Conservation of natural resources is the need of the future generation.

It is our duty to conserve them for the future. Conservation of biodiversity is the most essential for the upcoming generations.

It is important to conserve natural resources to maintain the ecosystem and sustainability of these resources for our future generation.

Sustainable development is a theory which states that we should use our resources in such a way that it can also be conserved for our successors.

## **Technical Speaker : T.R.C. Murty- Renewable Energy - Solar Powers**

Solar power represents a clean, sustainable energy solution with significant potential to reduce greenhouse gas emissions, enhance energy security, and promote economic development. Continued investments in research, development, and deployment are essential to realizing solar power's full potential in the global energy transition towards a low-carbon future.

India's solar journey is testament to its commitment to sustainable development and combating climate change.

Despite the challenges of land acquisition, grid integration, manufacturing dependencies, financial constraints, etc., the opportunities in solar energy are vast.

With robust policy support, continued innovation and a collective will, India is well on its way to becoming a global solar powerhouse.

**Technical Speaker 5 : J. Devaprakash,**

**Topic : Powering Progress, Preserving Nature: The Tarapur Case**

Tarapur Atomic Power Station is located about 140 km North of Mumbai in Palghar district of Maharashtra. This Power Station is situated on the sea shore and comprises of four units. Initially, unit 1&2 were established in 1969 with an initial generating capacity of 210 Mwe each. The cooling water requirement is drawn from the sea through an intake channel and the warm water from the condensers is discharged back into the sea through an outfall channel. Selection of location of cooling water Intake and Outfall is important at the design stage of any power plant

### **Outcome and Benefits**

- The intake and outfall structures were designed in such a way that, no warm water reticulation takes place while both the power stations are operating to their full capacity, simultaneously.
- The Power Stations are getting their desired quantum of Cooling water and working satisfactorily.

## Training Calendar- June-2024

Course Title	Start Date	End Date	Fees	Duration	Class Type
LA 13485	10th June2024	14th June2024	INR 17,000+ 18% GST	10am to 5.00pm	Online
LA IMS	17th June2024	21st June2024	INR 17,000+18% GST	10am to 5.00pm	Online
LA FSMS	18th June2024	22nd June2024	INR 15,000 + 18% GST	10am to 5.00pm	Online
IQA 13485	25th June2024	26th June2024	INR 7,000 + 18% GST	10am to 5.00pm	Online

## Riddles

1. My panels absorb the sun's bright ray, to power homes both night and day. What am I?
2. I'm not alive, but I grow; not lungs, but I need air to blow. What am I?
3. A mobile haven, I am not a car, I keep you fit and take you far. What am I?
4. My leaves reach up, my roots stretch down, in forests and streets, my presence is found. What am I?
5. Fill me up, take a sip, save our seas from a plastic grip. What am I?
6. Lush and green, full of life, in my depths, you'll find nature's strife. What am I?
7. I am young but give me time, I'll grow to clean the air that's mine. What am I?
8. A change I am, but not for the best; a warming test, for the Earth's vast nest. What am I?
9. The first World Environment Day was held in which year?
10. I'm a big place with lots of trees, animals, and sometimes paths?
11. What has many colors and appears in the sky after it rains?

Solar Panel, Wind Turbine, Bicycle, Tree, Water Bottle (Reusable), Rainforest,  
Plant Seedling, Climate Change, 1974,  
Forest, Rainbow

## SURYAANSH

### About Us

Nestled near Mumbai, in the serene surroundings of Palghar, Suryaansh Training & Convention Centre stands as an epitome of luxury and tranquility, offering an unparalleled experience that caters to your every need, whether you're seeking a serene getaway or planning a grand event.

At Suryaansh, we believe that every journey deserves a touch of luxury, every stay should be unforgettable, and every traveller deserves seamless experiences. We are your premier destination for hotel bookings, committed to transforming your travel dreams into reality. Established with a passion for hospitality and a commitment to excellence, Suryaansh is a leading name in the travel industry, with a team of dedicated professionals deeply passionate about curating exceptional travel experiences.

### Vision:

"Our vision at Suryaansh is to be Your Gateway to Memorable Stays", where every journey is imbued with luxury, every stay is etched into memory, and every traveller experience seamless excellence. As your premier destination for hotel bookings, we are committed to transforming your travel dreams into reality. At Suryaansh Training & Convention Centre, we extend this vision to become the ultimate destination for events, training programs, and leisure getaways, setting new standards of excellence in hospitality and service."

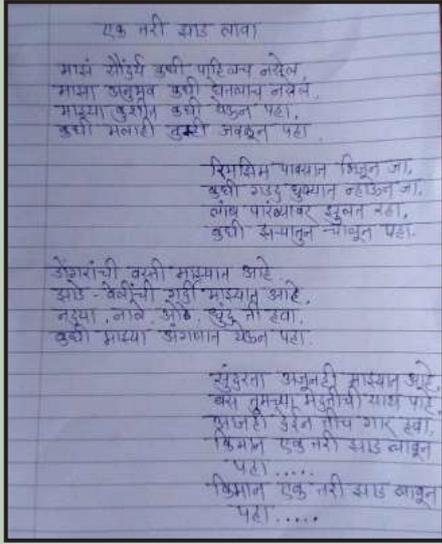

### Mission:

"Our mission at Suryaansh is simple yet ambitious: to redefine the way people travel by providing unforgettable experiences through world-class facilities, impeccable service, and a commitment to excellence in everything we do. We are dedicated to leveraging cutting-edge technology and innovative solutions to streamline the booking process, enhance convenience, and elevate the overall travel experience for our guests. With a relentless focus on customer satisfaction and continuous improvement, we strive to set new standards of excellence in the travel industry."

## Horoscope Month of June - 2024

Aries

This month, you may experience an increase in wealth inflow, leading to financial stability. Make smart decisions to invest in your skills or business. However, adopt a cautious and self-disciplined approach while managing your finances for personal use. This is also when you should review your family connections and reevaluate their direction. There could be moments when you question the worthiness of emotional stability in your romantic relationships.

Taurus

Pay more attention to your body's signals this month, and ensure you address any active health concerns. While working, it is essential to find a balance between work and rest to sustain your general health. At work, keep focused. Innovative ideas can assist you in ascending the career ladder. Do not squander the opportunity to showcase your skills and step up as a leader. The higher-ups will observe your work, and it will be an important step on the road to success.

Gemini

This month, thoroughly analyse your spending patterns and priorities with a critical eye. Spend time reviewing your budget, defining where amendments are needed, and developing a long-term financial plan. Rather than rushed spending, concentrate on creating a healthy long-term financial habit. Step back to delve within yourself and discover your inner feelings in relationships. Find out what you want in relationships.

Cancer

Be proactive when searching for new prospects to help you achieve your career goals this month. Being innovative and ready to be flexible will bring the attention of your superiors and peers, and this will be the foundation of your success. You could also get the chance to raise your income by investing in assets, partnerships or unexpected windfalls. Social interactions will help you connect with your future partner if you are single.

Leo

You could end up in the limelight this month, as many people notice your professional accomplishments. As you build up your experience and knowledge, you will have chances to move up in your field. Be ready to grab those opportunities with a confident attitude and determination. Learn how to manage your personal and professional lives. Be transparent with your life partner about your career objectives and share your plans for the future with them.

Virgo

You could discover yourself being attracted to new frontiers, be it on the professional level by opening the way to new career paths or on the personal level by searching for new knowledge and skills that extend your expertise. Make the most of this time to enlarge your professional profile by studying further, launching your own business, or even travelling abroad. Whether you are single or in a relationship, this is a time to choose diversity and open-mindedness in matters of the heart.

## Horoscope Month of June - 2024

Libra

Rethink and change your approach to income generation and spending. Making financial choices requires careful thinking and, if necessary, should be avoided this month. You will feel the need to communicate with your partner on a deeper level and explore the different layers of intimacy. This is also an excellent opportunity to integrate holistic healing methods that will bring inner stability. Be open to change that can make your career go through profound personal transformation

Scorpio

Collaborations and partnerships will be crucial to your life this month. You could reach a milestone in your journey to finding a meaningful connection or meet someone whose heart and values match yours. Professionally, this is the right moment to explore a joint venture, look for strategic partnerships, or upgrade your professional contacts. You will have to rely on your ability to interact positively with others to reach your professional objectives.

Sagittarius

Be mindful of your physical, mental, and emotional needs and consciously try to maintain a balanced state of affairs. Follow the signals that your body gives you and attack any health issues in advance to avoid the risk of them getting worse. At work, you will have a sense of heightened productivity and efficiency, as well as a strong feeling of accountability. Use this time to handle tasks with diligence and commitment. A promotion or job elevation is on the cards.

Capricorn

This month is a good opportunity to spice things up and add freshness to your relationships. Organise thrilling adventures or do some joint creative undertakings to boost the relationship. If you are single, you may be attracted to stylish people. Take advantage of the chances for love that come your way. At work, you will have a lot of new ideas and methods for handling tasks. Be flexible and keep your job search options open, as you might chance upon something better.

Aquarius

This month makes an internal journey possible, leading to personal development in emotional matters. This is the time to reevaluate your standards in your relationships and reach a deeper level with your loved ones. Transparent and constructive communication will help overcome any misconceptions. Investments in land and real estate will be favourable. Think about the effort required to build relationships with your colleagues.

Pisces

This month signals a time for increased communication and intellectual involvement in your work. You may suddenly have the insight to put your thoughts in a better way and the refinement to express yourself better. This is the golden moment to showcase yourself as a networker and communicator, affirm your goals with courage, and pursue all new chances of growth. This is the best time to break the ice and share your ideas and emotions honestly.
